Paul Raphael O. Nicolas

BSIT Student | Full-Stack Developer

Gen. Natividad, Nueva Ecija | paulraph.nic25@gmail.com | github.com/impol525

Objective

BSIT student and Civil Service Exam (Professional) passer seeking an opportunity to grow as a software developer. Brings hands-on experience building web and mobile information systems for a municipal disaster-response office, along with skills in database management, technical documentation, and full-stack development.

Education

Bachelor of Science in Information Technology 2023 – 2027

Major in Web System Technology

NEUST - Nueva Ecija University of Science and Technology (Atate Campus)

Certification

Civil Service Exam - Professional Level (CSC Passer, August 2026)

Projects

Bongabon LifeLink (Capstone) 2025 – 2026

Full-Stack Developer (Team of 4)

Incident tracking and responder coordination platform for MDRRMO Bongabon. Features a real-time Live Board with Leaflet.js map tracking, a native responder app with offline queuing, digital patient care reports, and role-based bcrypt security.

Tech: Ionic, Angular, Capacitor, PHP, MySQL, Leaflet.js

SnapAttend 2025 – 2026

Full-Stack Developer

Cross-platform QR attendance app with Haversine GPS geofencing, anti-proxy 24-hour device binding, real-time Firestore sync, host session history dashboards, and CSV report exports.

Tech: Ionic, Angular, Capacitor, Firebase, TypeScript

Skills

Ionic, Angular, TypeScript, JavaScript, HTML/CSS, Capacitor, Firebase, PHP, MySQL, Leaflet.js, REST APIs, Git & GitHub, Agile (Scrum)

Trainings and Seminars

- Modern Web Development: From Front-End to Full-Stack (WVSU, Aug 2026)
- Cultivating Innovation: Agricultural Challenges into Tech (DICT CALABARZON, Aug 2026)
- PRESS START: Game Development in Region 8 (DICT Region VIII, Aug 2026)
- How to Grow Your I.T. Career by Becoming CCNA (Tech Academy, Aug 2026)
